ABOUT US

Built around how businesses actually run.

iBA Technologies builds ERP for businesses that want real operational control. Practical, modular, and trusted by small and medium businesses.

Our products are designed and developed in-house or with trusted partners, built on tested technology, and refined through years of working alongside the businesses we serve.

We believe ERP shouldn't be complicated, expensive, or rigid. It should fit the way you already work, and grow with you as you scale.

THREE PRINCIPLES. EVERY PRODUCT.

01 / PRACTICAL

Build for real work

02 / MODULAR

Use what you need

03 / RELIABLE

Tested before it ships

WHY iBA

What sets us apart.

01

Over a decade in business

Years of working alongside small and medium businesses has shaped a product that fits how real businesses operate.

02

Right-sized for you business

Powerful enough to run real operations, simple enough that your team will actually use it. No bloat, no unnecessary complexity.

03

Modular by design

Pick the products you need today. Add the rest when you're ready. No forced bundles.

04

Works on mobile

Check finances, AR/AP, and key reports from your phone. Your business runs even when you're away from the desk.

WHO WE SERVE

ERP that fits how you work.

From manufacturing floors to warehouses, project sites to service teams. We adapt to how your business runs.

01

MANUFACTURING

Ready-mix and multi-stage production, BOM management, raw material consumption, and order fulfilment from sales to delivery.

02

CONSTRUCTION & PROJECTS

Job costing, BOQ, payment schedules, fixed assets, and progress tracking for project-driven businesses.

03

LOGISTICS & TRANSPORT

Trip planning, vehicle allocation, journey management, and revenue reporting for fleet operators.

04

WAREHOUSING & 3PL

Inbound, outbound, put-away, billing, and a customer portal for warehouses and third-party logistics providers.

05

TRADING & DISTRIBUTION

End-to-end purchase, sales, and inventory management for trading companies and distributors.

06

PROFESSIONAL SERVICES

HR, payroll, asset management, and financial reporting for service-led organisations.

THE PLATFORM

Ten products. One platform.

Each product runs standalone or seamlessly with the rest. Pick what you need today, add more as you grow.

FINANCE

01 **Accounts & Finance**

02 **Purchase & Sales**

How we get you live

A proven process from frist conversation to lauch day, broken into five clear phases.

01 **DISCOVER**
Agreement, requirement study, sign-off

02 **BUILD**
Development, deployment, test setup

03 **MIGRATE**
Data entry and upload for opening balances

04 **TRAIN**
User training and acceptence testing

05 **LAUNCH**
Final sign-off and go live

- **WE LISTEN FIRST**
  Every implementation starts with a system study and requirement definition, signed off by you before any development happens
- **WE BUILD DELIBERATELY**
  Development, deployment, and testing happen in clear, trackable phases. Data migration and training are part of the process.
- **WE STAY CLOSE AFTER LAUNCH**
  Going live isnt't the end. We continue supporting, refining, and adapting the system as your business evolves

ON THE GO

Your finances in your pocket.

Check key reports, customer outstanding, and supplier balances straight from your phone, wherever you are.

- MIS reports and trial balance summaries
- AR/AP statements, oustanding, and ageing
- Cash and bank balances at a glance
- Customer and supplier enquires
